

Safety Update:

In an effort to help keep our students and staff members safe, the Hazelwood School District has installed a new entry system for our school, Northwest Middle. The purpose of the system is to help the office personnel monitor who comes into the building.

When you visit the campus during the school day, you will need to go to the far left door (handicapped door). Above the handicap button is a monitor. Once you press the button, the office will be able to see you and we can release the lock from inside.

Once you come into the building, enter the front office and provide our secretary with some identification. While this may be an inconvenience for you at first, it will eventually become a routine and will help ensure the safety of your children.

If you have any questions, please feel free to contact Ms. Hobbs.
